

# AGQ

## ProShares Ultra Silver

### Analyst Report

This ETF offers 2x daily long leverage to the Silver bullion, making it a powerful tool for investors with a bullish short-term outlook for silver. Investors should note that AGQ's leverage resets on a daily basis, which results in compounding of returns when held for multiple periods. AGQ can be a powerful tool for sophisticated investors, but should be avoided by those with a low risk tolerance or a buy-and-hold strategy.
