## Fidelity MSCI Consumer Discretionary Index ETF Analyst Report

The Fidelity MSCI Consumer Discretionary Index ETF (FDIS) offers targeted exposure to the U.S. consumer discretionary sector, including stocks like apparel retailers, hotel operators, cruise line companies, auto makers, and more. Consumer discretionary ETFs can be a useful tool for investors implementing a sector rotation strategy or seeking to tilt their portfolio. FDIS may appeal to some buy-and-hold investors during times of economic strength since the discretionary sector generally typically does well when consumers have a little extra money to spend. FDIS is competitively priced against rivals like the Consumer Discretionary Select Sector SPDR (XLY), the Vanguard Consumer Discretionary ETF (VCR), and the iShares U.S. Consumer Services ETF (IYC). As of June 2020, FDIS owns more than 200 stocks, including small caps, making it a more diversified option than XLY, long the dominant fund in the space. Short-term traders may prefer the size and liquidity of XLY.
