Franklin Senior Loan ETF Franklin Liberty Senior Loan Fund Analyst Report

The Franklin Liberty Senior Loan ETF (FLBL) is an actively managed ETF that seeks to invest in senior loans, a segment of the debt market that can offer great yields for those investors willing to take on significant risks. FLBL invests in leveraged loans, bank loans, and floating-rate loans, which are often extended to 'junk' borrowers with below investment-grade credit ratings. The fund may invest in loans of companies whose financial condition is uncertain, including companies involved in bankruptcy proceedings and restructuring. FLBL is priced competitively for active management. Investors can compare performance and fees against passive rivals like the Invesco Senior Loan ETF (BKLN).
