## iShares U.S. Home Construction ETF

### Analyst Report

This ETF offers exposure to the U.S. homebuilding industry, and as such offers exposure to a corner of the domestic economy that tends to be cyclical in nature. In addition to pure play homebuilders, this fund includes companies related generally to the homebuilding industry, such as Home Depot. For homebuilder exposure, ITB is competitive in terms of expense ratio, but may be significantly more concentrated than other options such as PKB or XHB.
