

MIDU

Direxion Daily Mid Cap Bull 3X ETF

Analyst Report

This ETF offers 3x daily long leverage to the S&P Midcap 400 Index, making it a powerful tool for investors with a bullish short-term outlook for MidCap U.S. equities. Investors should note that MIDU's leverage resets on a daily basis, which results in compounding of returns when held for multiple periods. MIDU can be a powerful tool for sophisticated investors, but should be avoided by those with a low risk tolerance or a buy-and-hold strategy.
