

NORW

Global X MSCI Norway ETF

Analyst Report

NORW offers investors exposure to the European market of Norway by investing in securities that trade on the national stock exchange of the nation. Since many of the large caps in this fund are likely to be found in other EFA holdings, the fund is not appropriate for investors seeking broad diversification across Europe. For investors looking for high levels of exposure to the Norwegian market in particular, NORW is probably the best 'pure play' option available.
