

TPOR

Direxion Daily Transportation Bull 3X ETF

Analyst Report

The Direxion Daily Transportation Bull 3X Shares (TPOR) aims to triple the daily return of an index of the Dow Jones Transportation Average Index, a benchmark of companies involved in road, rail, air travel, marine transport, air freight, and logistics. TPOR is intended to be used as a short-term trading tool by sophisticated investors. TPOR, like most leveraged products, rebalances at the end of every trading day. In practice, this means TPOR's performance will diverge significantly from the underlying stocks. The daily reset means that TPOR could lose money over time even if the underlying equities have gained, which can come as a rude surprise to unsuspecting buy-and-hold investors.
