

TZA

Direxion Daily Small Cap Bear 3X ETF

Analyst Report

This ETF offers 3x daily short leverage to the Russell 2000 Index, making it a powerful tool for investors with a bearish short-term outlook for small cap equities. Investors should note that TZA's leverage resets on a daily basis, which results in compounding of returns when held for multiple periods. TZA can be a powerful tool for sophisticated investors, but should be avoided by those with a low risk tolerance or a buy-and-hold strategy.
