ETFS Physical Precious Metals Basket Shares (GLTR)

**Investment Objective**

ETFS Physical Precious Metals Basket Shares (the Shares) are issued by ETFS Precious Metals Basket Trust (the Trust). The investment objective of the Trust, Symbol: GLTR, is for the Shares to reflect the performance of the price of a basket of gold, silver, platinum and palladium bullion, less the expenses of the Trust’s operations. The Shares are designed for investors who want a cost effective and convenient way to invest in physically-backed precious metals.

**About the pricing**

The price of GLTR is based on the spot price of precious metals less the Trust’s expenses. All the precious metals are priced off the LPPM’s and LBMA’s specifications for Good Delivery, which are internationally recognized and transparent benchmark for pricing of precious metals. Details regarding the pricing calculations are available on our website at: www.etfsecurities.com.

**Risk & Important Considerations**

The ETFS Precious Metals Basket Trust is not an investment company registered under the Investment Company Act of 1940 or a commodity pool for purposes of the Commodity Exchange Act. Shares of the Precious Metals Basket Trust are not subject to the same regulatory requirements as mutual funds. These investments are not suitable for all investors.

* There are special risks associated with short selling and margin investing. Please ask your financial advisor for more information about these risks.

Historical Cumulative Performance

Data from 1 April 2010 to 31 March 2015. Data source Bloomberg. The performance quoted represents past performance of the index and is not indicative of future performance.

Key Features

The Shares represent beneficial interest in the Trust, which in turn holds physical allocated gold, silver, platinum and palladium bullion held in vaults in London and Zurich.

Physically-Backed: The Trusts hold allocated physical bullion bars stored in secure vaults

Bullion inspections: Bullion held by the trusts is inspected biannually (once at random) by an independent metal assayer

Bar lists: Bar lists showing all bullion bars held are published daily on www.etfsecurities.com

No lending: The trusts are not permitted to engage in lending of the bullion

Metal quality: All bullion held by the Trusts conforms to standards of the LBMA (London Bullion Market Association) or LPPM (London Palladium Platinum Market)
Important Risks

The value of the Shares relates directly to the value of the gold, silver, platinum and palladium held by the Trust and fluctuations in the price of gold, silver, platinum and palladium could materially adversely affect an investment in the Shares. Several factors may affect the price of gold, silver, platinum and palladium, including:

- A change in economic conditions, such as a recession, can adversely affect the price of gold, silver, platinum and palladium. Gold, silver, platinum and palladium are used in a wide range of industrial applications, and an economic downturn could have a negative impact on their demand and, consequently, their price and the price of the Shares;
- Investors' expectations with respect to the rate of inflation;
- Currency exchange rates;
- Interest rates;
- Investment and trading activities of hedge funds and commodity funds; and
- Global or regional political, economic or financial events and situations. Should there be an increase in the level of hedge activity of gold, silver, platinum or palladium producing companies, it could cause a decline in world gold, silver, platinum and palladium prices, adversely affecting the price of the Shares.

Also, should the speculative community take a negative view towards gold, silver, platinum and palladium, it could cause a decline in world gold, silver, platinum and palladium prices, negatively impacting the price of the Shares.

There is a risk that part or all of the Trust's physical gold, silver, platinum and palladium could be lost, damaged or stolen. Failure by the Custodian or Sub-Custodian to exercise due care in the safekeeping of the precious metal held by the Trusts could result in a loss to the Trusts. The Trust will not insure its gold and shareholders cannot be assured that the custodian will maintain adequate insurance or any insurance with respect to the gold held by the custodian on behalf of the Trust. Consequently, a loss may be suffered with respect to the Trust's gold, silver, platinum and palladium that is not covered by insurance.

Commodities and futures generally are volatile and are not suitable for all investors.

Please refer to the prospectus for complete information regarding all risks associated with the Trust.

Investors buy and sell shares on a secondary market (i.e., not directly from trust). Only market makers or "authorized participants" may trade directly with the fund, typically in blocks of 50k to 100k shares.

Shares in the Trusts are not FDIC insured and may lose value and have no bank guarantee.

Carefully consider each fund’s investment objectives, risk factors, and fees and expenses before investing.

For further discussion of the risks associated with an investment in the funds please read the prospectus at http://etfsecurities.com/etfsdocs/USProspectus.aspx

or visit ETF Securities website: www.etfsecurities.com

Investment in the trust does not constitute a direct investment in the underlying metal.
