

AALG

Leverage Shares 2X Long AAL Daily ETF

Fund Description

AALG aims to provide 2x leveraged exposure to the daily price movement of American Airlines Group, Inc. (AAL) stock, less fees, and expenses.

FactSet Analyst Report

AALG is designed for making bullish bets on the stock price of American Airlines Group, Inc. (AAL) through swap agreements. The objective is to obtain daily leveraged exposure equivalent to 200% of the fund's net assets. To maintain this exposure, daily rebalancing is performed to make adjustments in response to AAL's daily price movements. As a geared product, the fund is intended as a short-term tactical tool, rather than as a long-term investment vehicle. As a result, returns may deviate from the expected 2x if held for longer than a single day due to compounding. This strategy is high-risk and does not include a defensive position as part of its overall process. Note that should AAL's value decline by more than 50% relative to the fund, investors could face a total loss. Additionally, the fund could potentially lose money over time, even if AAL's performance strengthens. The fund is expected to invest in money market funds, deposit accounts, and short-term debts.
