## Roundhill Sports Betting & iGaming ETF

### Fund Description

BETZ tracks a tier-weighted index of global companies selected by committee that are involved in the sports betting & iGaming industry.

### FactSet Analyst Report

BETZ is the second ETF by RoundHill investments and the first ETF to offer global passive exposure to companies in sports betting and iGaming industry. These companies are those actively involved in sports books and gambling operating in-person or online, and those providing infrastructure or technology to such companies. Securities included in the index are selected by committee which segregates the selection pool into three groups: Pure-play, Core and Non-core, based on their operations and/or growth prospects towards sports betting. Pure-play securities being heavily focused on sports betting, to Non-core which may have sports betting as a relevant driver in the future. The Index is tier-weighted whereby Core companies receives 150% of Non-cores initial weight and Pure-play receives 150% of Cores weight. These weights are adjusted by the numbers of companies in each group during quarterly rebalance and reconstitution to ensure a 100% combined weight.
