

# BLHY

## Virtus Newfleet High Yield Bond ETF

### Fund Description

BLHY actively invests in high yield securities of different maturities, from US and emerging market issuers.

### FactSet Analyst Report

BLHY is actively managed to invest primarily in high yield securities from different sectors. Strategies like issue selection, sector/industry selection and opportunistic trading are used by the manager to pursue the funds investment objective. BLHY will generally overweight those sectors and industries where well-valued companies are viewed to be improving. Also, the fund aims to maintain a duration similar to its benchmark index, the Bloomberg U.S. High-Yield 2% Issuer Capped Bond Index. While the fund aims to primarily invest in US securities, foreign debt from emerging markets may also be included in the portfolio. Prior to March 22, 2021, the fund was named Virtus Newfleet Dynamic Credit ETF and did not focus on a specific credit quality.
