FactSet Analyst Report

The fund is being delisted. The last trading on an exchange is November 10, 2023. BOSS seeks to invest in US companies that have a founder currently serving as Chief Executive Officer. The equally weighted underlying index is comprised of the 100 largest eligible companies by market-cap. Global X describes the funds investment thesis as capitalizing upon the sense of commitment that a founder feels towards a company and the positive traits that a founder must exhibit in order to grow a new business. Thus, an investment in BOSS is a vote for a particular management structure, rather than a fundamental, technical or sector bet. The fund is rebalanced annually.
