

BZZ

Corgi Drones & Urban Air Mobility ETF

Fund Description

BZZ is actively managed and invests in companies involved in drones, unmanned aircraft systems, and urban air mobility technologies, including aircraft developers, autonomy software, aerial infrastructure, and counter-drone systems. The fund aims for growth of capital.

FactSet Analyst Report

BZZ provides actively managed exposure to companies involved in drones, unmanned aircraft systems, and urban air mobility technologies. The strategy focuses on businesses tied to aerial robotics, autonomous flight systems, communications infrastructure, and operational platforms supporting the broader adoption of drone and advanced air mobility applications across commercial, industrial, public safety, and defense markets. Security selection combines thematic, quantitative, and bottom-up analysis, with emphasis placed on revenue exposure and positioning within the evolving aerial mobility ecosystem. The portfolio may include both US and international companies and can invest in less liquid opportunities aligned with the theme.
