

CGXU

Capital Group International Focus Equity ETF

Fund Description

CGXU actively invests in stocks of non-US companies that the adviser believes have high growth potential.

FactSet Analyst Report

CGXU employs an active strategy to invest in companies domiciled outside the US, including those in emerging markets. The fund targets stocks it believes have the potential for growth. The fund uses a multi-manager approach, each handling their own segments within the portfolio. This ETF heavily relies on the advisers judgement regarding decisions affecting the portfolio, which favours attractively valued companies that represent good, long-term investment opportunities.
