CHIC includes all major share classes, including A, B, and H shares, red chips, P chips, and foreign listings. Its methodology also includes a capping scheme wherein each group entity is capped at 10% and the cumulative weight of all group entities weighing more than 5% does not exceed 50% of the index. Prior to December 6, 2018, CHIC traded under the ticker QQQC, and it tracked an index focused exclusively on Chinese tech firms.
