

CNBS

Amplify Seymour Cannabis ETF

Fund Description

CNBS is an actively managed portfolio of global stocks related to cannabis and hemp. The fund also invests in derivatives with similar characteristics.

FactSet Analyst Report

CNBS is a global take on marijuana stocks. The fund invests in securities of companies of all market caps that derive 50% or more of their revenue from the cannabis and hemp ecosystem, which is classified as one of three things: cannabis/hemp plant (pharmaceuticals/biotechnology, cultivation & retail, hemp products and cannabis-infused products), support (agricultural technology, Real Estate and Commercial Services), or Ancillary (Consumption Devices/Mechanisms, Investing & Finance, Technology & Media and Other Ancillary). The fund can also invest no more 60% of its assets in derivative instruments, which may include total return swaps, that provide exposure to companies principally engaging in the cannabis and hemp ecosystem. The fund is actively managed.
