

CRPT

First Trust SkyBridge Crypto Industry & Digital Economy ETF

Fund Description

CRPT actively invests in companies supporting the crypto industry and the digital economy around the world.

FactSet Analyst Report

CRPT uses an active approach to build a portfolio of globally-listed companies involved in crypto assets or the digital economy. The fund invests at least half of its assets in crypto industry companies, which derive at least 50% revenue or devote at least 50% of their assets to the industry. This includes crypto asset miners, mining equipment suppliers, trading & asset management firms, and firms that hold crypto assets on their balance sheet. The remainder of the portfolio is allocated to the digital economy ecosystem, which comprises firms deriving significant revenue in digital banks, online brokerages & trading platforms, digital payment firms, and semiconductor manufacturers. The fund adviser selects companies believed to be well positioned in their respective industries and are expected to provide the best opportunity for capital appreciation.
