

DINT

Davis Select International ETF

Fund Description

DINT holds an actively-managed portfolio of international companies outside the US, selected based on prospects for long-term growth of capital.

FactSet Analyst Report

DINT offers a concentrated portfolio of global stocks of all capitalization, from both developed and emerging markets outside the US. The fund is actively managed to provide long-term growth of capital. DINT's bottom-up investment strategy aims to identify best of breed international stocks that represent durable and well-managed businesses. It aims to purchase such securities at discounts to their intrinsic worth, and intends to hold them for the long-term. Davis Funds conducts rigorous research by visiting managers at their places of business. DINT can be used to emphasize international equity exposure when used as a complement to their broader global product, DWLD.
