

ECLN

First Trust EIP Carbon Impact ETF

Fund Description

ECLN is an actively-managed fund comprised of developed-economy equities of companies committed to a reduction of carbon emissions.

FactSet Analyst Report

ECLN focuses on companies that have a publicly available plan to reduce, or enable the reduction of carbon and other greenhouse gas (GHG) emissions, and overall having a positive carbon impact. The fund selects from companies operating in the following industries, including but not limited to: utilities, natural gas pipelines, manufacturers, contracted developers and/or owners of renewable energy. ECLN will invest in all market cap sizes.
