

EMAG

VanEck Vectors Emerging Markets Aggregate Bond ETF

Fund Description

EMAG tracks a market-value-weighted index of bonds denominated in USD and local currencies of various credit qualities issued by emerging market governments and/or corporations.

FactSet Analyst Report

The security is being delisted. The last day of trading on an exchange is October 15, 2021. EMAG is a passively managed ETF which has a comprehensive way of accessing the bond universe from emerging markets with its diversification across corporate and sovereign bonds of various credit qualities. The fund tracks an index composed of bonds denominated in USD, euros or local emerging markets currencies. It selects both bonds of investment-grade and high-yield credit ratings that have a minimum of 24 months remaining to maturity. The index is reviewed monthly.
