

FDIG

Fidelity Crypto Industry and Digital Payments ETF

Fund Description

FDIG tracks an index of global companies related to cryptocurrency, blockchain technology, and digital payments processing, selected based on revenue derived from the relevant themes, and weighted by average daily trading volume.

FactSet Analyst Report

FDIG seeks to track an index of global equities engaged in the crypto and digital payments processing industries. The crypto stocks eligible for inclusion are those that relate to crypto miners, provide financial services to support cryptos issued on a blockchain, and other blockchain technologies. The fund does not directly or indirectly invest in any digital asset. The digital payment stocks are those that facilitate payment activities through processes and protocols. Companies included must derive at least 50% of their revenue from the relevant themes. At least 60% of the fund will be made up of crypto stocks, while the remainder of the fund will be made up of 20 digital payment stocks. Weightings are based on average daily trading volume. Rebalancing occurs quarterly.
