

FTAG

First Trust Indxx Global Agriculture ETF

Fund Description

FTAG tracks a global, market-cap-weighted index of firms engaged in improving agricultural yields.

FactSet Analyst Report

FTAG provides access to global firms involved in improving agricultural yields. Specifically, the fund consists of the following sub-industries: chemicals and fertilizers, seed manufacturers, irrigation equipment providers and farm machinery companies. The portfolio also includes farmland companies which is a unique feature in the global agriculture space. From a selection universe of eligible companies, the fund selects those that generate at least 10% of their revenue from the mentioned sub-industries and weights them according to market-cap. The index reconstitutes annually and rebalances quarterly. Prior to December 18, 2015, FTAG tracked a completely unrelated index of platinum miners under the fund name, First Trust ISE Global Platinum Index Fund (PLTM).
