

GSUS

Goldman Sachs MarketBeta U.S. Equity ETF

Fund Description

GSUS tracks an index of US equities selected and weighted by market capitalization.

FactSet Analyst Report

GSUS is passively managed to invest in large- and mid-cap companies. The fund targets the largest 85% firms by market capitalization from the US. It offers plain vanilla exposure to broad sectors, which allows investors to build a portfolio of passive exposure to US equity markets. The Index is weighted by market capitalization and reconstituted on a semi-annual basis.
