## Goldman Sachs MarketBeta U.S. Equity ETF

### Fund Description

GSUS tracks an index of US equities, selected and weighted by market capitalization.

### FactSet Analyst Report

GSUS is passively managed to invest in large- and mid-cap companies. The fund targets the largest 85% firms by market cap from the US. It offers a plain vanilla exposure to broad sectors, which allows investors to build a portfolio of passive exposure to US equity markets. The Index is weighted by market cap and reconstituted on a semi-annual basis.
