## Global X PureCap MSCI Communication Services ETF

### Fund Description

GXPC tracks an index that selects US companies involved in the Communication Services sector. Holdings are weighted purely by market capitalization without maximum weight constraints.

### FactSet Analyst Report

GXPC offers concentrated exposure to the US Communication Services industry. The underlying index selects companies from the MSCI USA Index that are involved in the Communication Services sector, as defined by GICS. These are firms that facilitate communication and provide related content and information through various channels, such as telecom, media, and entertainment companies, including producers of interactive gaming products and companies engaged in creating or distributing content and information via proprietary platforms. The fund may also invest in ETFs that track the performance of Communication Services companies or firms with a similar investment profile as the index constituents. Selected securities are weighted based purely on market capitalization, without maximum weight constraints. The index rebalances and reconstitutes on a quarterly basis.
