

# IDEV

# iShares Core MSCI International Developed Markets ETF

## Fund Description

IDEV tracks a market-cap-weighted index of large-, mid, and small-cap stocks from developed countries, excluding the US.

## FactSet Analyst Report

IDEV competes in a well-populated segment of the ETF landscape, reaching deep to cover 99% of total market cap. Tracking a free float-adjusted, market-cap-weighted index of companies from all capitalizations, IDEV offers vanilla exposure to developed markets ex-US. The fund will generally invest at least 90% of its assets in the component securities of the Underlying Index and in investments substantially identical to such component securities of the Underlying Index. A representative sampling indexing strategy is used in order to manage the Fund.
