

# IWFH

## iShares Virtual Work and Life Multisector ETF

### Fund Description

IWFH tracks a market-cap-weighted index that invests in companies around the globe that are involved in supporting individuals virtual and remote way of working and living.

### FactSet Analyst Report

IWFH invests in equities from 41 developed or emerging markets and across multiple sectors, which support Tele-work and Tele-lifestyles. The Index selects securities based on fundamental research that allow a virtual way of life across entertainment, wellness and learning. The starting universe considers the most liquid, publicly-traded companies, classified using FactSets Revere Business Industry Classification System (RBICS) based on their primary lines of business, revenue data and a related keyword search. Selected companies are those that derive a majority of their revenues from 33 RBICS industries considered as Virtual Work and Life products and services providers. Holdings are market-cap-weighted with individual stocks capped at 2%. The Index undergoes annual reconstitution and semi-annual rebalance.
