

# JUSA

## JPMorgan ActiveBuilders U.S. Large Cap Equity ETF

### Fund Description

JUSA actively selects US large-cap equities using a top-down and bottom-up approach in seeking to provide long-term capital appreciation.

### FactSet Analyst Report

The fund is closing. The last day of trading on an exchange is September 13, 2023. JUSA is an actively managed fund which focuses on large-cap companies in the US in an attempt to outperform its benchmark overtime, the S&P 500 Index, while maintaining similar risk characteristics. In managing the fund, the adviser makes use of a top-down and bottom-up approach as well as a continuous three-step process in making asset allocation and portfolio construction decisions based on risk/return analysis and relative value considerations. In addition, the fund will overweight or underweight sectors relative to the benchmark. JUSA launched alongside JIDA and joined JEMA to round out JP Morgans ActiveBuilders ETF core equity suite.
