

PLUL

Leverage Shares 2X Long PLUG Daily ETF

Fund Description

PLUL aims to provide 2x leveraged exposure to the daily price movement of Plug Power Inc. (Nasdaq: PLUG) stock, less fees, and expenses. PLUG provides hydrogen fuel cell systems and green hydrogen solutions for material handling, transportation, and stationary power applications.

FactSet Analyst Report

PLUL is designed for making bullish bets on the stock price of Plug Power Inc., through swap agreements. The objective is to obtain daily leveraged exposure equivalent to 200% of the fund's net assets. To maintain this exposure, daily rebalancing is performed to make adjustments in response to PLUG's daily price movements. As a geared product, the fund is intended as a short-term tactical tool, rather than as a long-term investment vehicle. As a result, returns may deviate from the expected 2x if held for longer than a single day due to compounding. This strategy is high-risk and does not include a defensive position as part of its overall process. Note that should PLUG's value decline by more than 50% relative to the fund, investors could face a total loss. Additionally, the fund could potentially lose money over time, even if PLUG's performance strengthens. The fund is expected to invest in money market funds, deposit accounts, and short-term debts.
