

QEW

Invesco QQQ Equal Weight ETF

Fund Description

QEW tracks an equal-weighted version of the NASDAQ 100.

FactSet Analyst Report

QEW provides equal-weighted exposure to the NASDAQ 100, a tech-focused index that comprises 100 of the largest domestic and international non-financial companies listed on the NASDAQ Stock Market based on market capitalization. The index invests in companies across various non-financial sectors and rebalances quarterly to provide equal allocation to all constituents without any sector or cap biases. Overall, the fund is a reasonable way to access the NASDAQ 100 for investors seeking a purer exposure to the non-financial space with lower concentration.
