Fund Description

RFFC is an actively-managed fund of US stocks selected on the basis of multiple factors such as value, quality, and momentum.

FactSet Analyst Report

RFFC is an actively-managed fund holding small-, mid, and large-cap US stocks. The fund creates its portfolio by screening for core attributes, including value, quality and momentum. The fund may use several proprietary factors within each core attribute such as P/B for value, P/CF for quality, and relative strength for momentum. RFFC also has other screens for liquidity and market-cap. Additionally, the fund may also invest in other ETFs and/or closed end funds.
