

RSPS

Invesco S&P 500 Equal Weight Consumer Staples ETF

Fund Description

RSPS tracks an equal-weighted index of large-cap US consumer staples stocks drawn from the S&P 500.

FactSet Analyst Report

RSPS delivers a narrow, equal-weighted portfolio of firms in the US consumer staples sector. The fund should appeal to consumer staples investors who like S&P 500 stocks but want an alternative to market-cap-weighting. RSPS's restriction to S&P 500 components results in a portfolio of less than 40 names, though its equal-weighting scheme reduces concentration and limits single-name blow-up risk. The index is rebalanced on a quarterly basis. Prior to June 7, 2023, the fund traded under the ticker RHS.
