

# SMUP

## T-REX 2X Long SMR Daily Target ETF

### Fund Description

SMUP aims to provide 2x leveraged exposure to the daily price movement of NuScale Power Corporation stock (NYSE: SMR), less fees and expenses.

### FactSet Analyst Report

SMUP is designed for making bullish bets on the stock price of NuScale Power Corporation through swap agreements. The objective is to obtain daily leveraged exposure equivalent to 200% of the fund's net assets. To maintain this exposure, daily rebalancing is performed to make adjustments in response to SMR's daily price movements. As a geared product, the fund is intended as a short-term tactical tool, rather than as a long-term investment vehicle. As a result, returns may deviate from the expected 2x if held for longer than a single day due to compounding. This strategy is high-risk and does not include a defensive position as part of its overall process. Note that: should SMR's value decline by more than 50% relative to the fund, investors could face a total loss. Additionally, the fund could potentially lose money over time, even if SMR's performance strengthens. The fund is expected to invest in money market funds, deposit accounts, and short-term debts.
