## iShares Top 20 U.S. Stocks ETF

### Fund Description

TOPT seeks to mirror the performance of an index comprising the top 20 largest US firms by market-cap in the S&P 500. The companies are weighted by their float-adjusted market-cap.

### FactSet Analyst Report

TOPT aims to replicate the performance of the 20 largest US companies by market capitalization within the S&P 500. The fund utilizes float-adjusted weights, implementing caps of 22.5% for any single issuer and 48% for the aggregate of those exceeding 4.5% to ensure diversity. Holdings are adjusted quarterly to align with current market conditions and corporate changes. Predominantly investing in these leading companies, TOPT may also utilize derivatives and cash equivalents to maintain alignment with its target index. This approach enhances the funds responsiveness to economic shifts and maximizes investment potential.
