## VanEck Communication Services TruSector ETF

### Fund Description

TRUC is an actively managed ETF that invests in equity securities of communication services-related companies. The fund seeks long-term capital appreciation through exposure to industries such as telecom, media, entertainment, and interactive services.

### FactSet Analyst Report

TRUC concentrates on communication services-related companies, including telecommunications, media, entertainment, and interactive services businesses listed in the US. Security selection is driven by a discretionary process that favors established market leaders with strong competitive positioning, scale, growth characteristics, and operating performance. Exposure may be obtained through direct equity holdings, ETFs focused on segments of the sector, or selectively through total return swaps. Portfolio construction reflects the advisers leadership-based framework rather than market capitalization weighting and may result in concentrated positions within certain industry groups. Allocations and holdings can shift over time as sector dynamics and company fundamentals evolve.
