

USHY

iShares Broad USD High Yield Corporate Bond ETF

Fund Description

USHY tracks a market value-weighted index of USD-denominated high yield corporate debt with broad maturities.

FactSet Analyst Report

USHY provides an expansive exposure to the USD-denominated corporate high yield bond market by including issuers from the FX-G10 countries. The FX-G10 countries that the fund may have exposure to includes the Eurozone Area, the UK and the US territories, Norway, Sweden, Switzerland, Australia, Canada, Japan, and New Zealand. The index caps each issuer at 2% but does not limit the number of issues. USHY invests in bonds that have a minimum outstanding face value of USD 250 million, minimum maturity date of 18 months, and at least one year remaining until maturity.
