

# VGRO

## Virtus Silvant Growth Opportunities ETF

### Fund Description

VGRO is actively managed, utilizing bottom-up fundamental research analysis to identify US large-cap companies the issuer believes provide the best potential of secular and cyclical growth stocks.

### FactSet Analyst Report

VGRO is an actively managed ETF focused on capital appreciation by investing in 20-30 US large-cap companies with strong fundamentals and above-average growth potential. Using bottom-up analysis, the managers select businesses with competitive advantages, high profitability, robust free cash flow, favorable price trends, and leadership in disruptive or transformative sectors. The portfolio emphasizes quality, earnings growth, attractive valuation, strong management, and innovative products/services. VGRO is non-diversified and may concentrate investments in specific sectors and may also invest in non-US equities, including ADRs, IPOs, and REITs.
