

VGVT

Vanguard Government Securities Active ETF

Fund Description

VGVT is an actively managed fund that invests in a diversified portfolio of investment grade US government bonds with varying maturities. It seeks to provide a moderate and sustainable level of current income.

FactSet Analyst Report

VGVT offers comprehensive exposure to US investment grade government bonds. The fund seeks to provide a moderate and sustainable level of current income through an actively managed portfolio of bonds issued, guaranteed, or sponsored by the US government and its agencies. The portfolio particularly holds investment grade bonds across various maturities and may include to-be-announced mortgage-backed securities. The fund may also utilize derivatives instruments, such as options, futures contracts, or other swap agreements.
